Synergy Capital focuses on critical sectors that generate strong positive human and economic impact, and the development of sustainable infrastructure and resilient traceable supply chains.

SYNERGY CAPITAL LAUNCHES FIRST LOAN FACILITY IN THE OFFSHORE SERVICES SECTOR

Dubai – April 7 2025

Synergy Capital is pleased to announce the successful closing of its first loan facility in the offshore services sector, marking a strategic expansion of its maritime portfolio.

Following a series of shipping investments in 2023 and 2024, Synergy Capital has extended a US\$36 million loan facility to a Singapore based offshore services company to support the acquisition of a highly specialized offshore services vessel.

The Singapore based client is a leading provider of turnkey offshore services solutions, supporting hook-up and commissioning operations, as well as ongoing maintenance of offshore oil and gas facilities. The company is rapidly emerging as a key player in the offshore services sector.

Sudhir Maheshwari, Founder and Managing Partner of Synergy Capital, commented:

“We are very pleased to support our Singapore-based client with this financing, marking our third shipping transaction since Jaap Kalverkamp joined the Synergy Capital team in 2023. This transaction reflects our growing conviction in the shipping and offshore services sectors. We look forward to continuing to expand our industry presence in 2025 and beyond.”

This transaction also marks the first investment in Synergy Capital’s Fund III launched in March 2025 and reinforces Synergy Capital’s commitment to supporting innovative and high-potential players in the global maritime and energy sectors.
